SUMMARY

I am an Associate Degree (D3) student in Informatics Management at Universitas Nasional Pasim Bandung, with a strong passion for technology and programming. Proficient in C# and experienced in developing applications using .NET Framework, ASP.NET Core, and React.js. I have hands-on mentoring experience and strong communication skills in explaining technical concepts. I am eager to contribute to creating efficient and innovative digital solutions that support business processes and technological transformation in the company.

EXPERIENCE

C# Fundamental Training Mentor
Feb/2025 - Jul/2025

Community Empowerment Program (PUB)

- Taught the fundamentals of C# programming, including essential .NET Framework concepts such as namespaces, classes, methods, variables, data types, and operators.
- Guided participants in mastering Object-Oriented Programming (OOP) concepts, including classes & objects, constructors, access modifiers, properties, and inheritance.
- Explained the MVC (Model-View-Controller) architecture and demonstrated how to connect applications to databases using C#, focusing on CRUD operations.
- Supervised final projects where participants developed simple desktop applications using C# and MySQL.

HTML, CSS & JavaScript Training Mentor
Apr/2025 - Jun/2025

Community Empowerment Program (PUB)

- Delivered training on web development fundamentals, focusing on the role of HTML, CSS, and JavaScript in building responsive and interactive websites.
- Explained key concepts of front-end development, including structure (HTML), styling (CSS), and behavior (JavaScript) to help participants understand how modern websites are built.

EDUCATION

Universitas Nasional PASIM Bandung (PASIM National University)
Sep/2023 - Present

- Associate Degree (D3) in Informatics Management GPA : 3.59 / 4.00

SKILLS

Skill	Level	Skill	Level
C#	Advanced	MySQL	Advanced
.Net Framework	Advanced	SQL Server	Advanced
ASP.Net Core	Advanced	Git & Github	Advanced
React.js	Intermediate	C	Advanced
PostgreSQL	Intermediate		

TRAINING

- Basic Logic & Algorithms (C Language)   Sep/2023 - Jan/2024

- Data Structures (C Language) & Database Fundamentals (MySQL   Jan/2024 - May/2024

- Front-End Fundamentals (HTML, CSS, JavaScript)   May/2024 - Jul/2024

- Back-End Fundamentals (C#), Git & GitHub   Jul/2024 - Oct/2024

- Advanced Back-End Development (C#)   Oct/2024 - Jan/2025

PROJECTS

- DrakorinAja

  Web-based Korean drama streaming application using HTML, CSS, and JavaScript. Features include search functionality, responsive design, and video simulation.

- FashionStore

  Desktop application for a fashion store developed using C# and .NET Framework. Includes CRUD features, sales transactions, and sales reports.

- BbbibbStore

  E-commerce web platform built with .NET, ASP.NET Core, and SQL Server. Features include user authentication, product management, order processing, and order status tracking.

- RestAPI

  RRESTful API for task management using .NET, ASP.NET Core, and MySQL. Provides structured CRUD endpoints for managing task data.
